Read the answer
Open the confirmation link sent to the corrected address
Request closed
E-mails resume to the confirmed address

SF-10 Scheduling plan and revisions

System

WF-03: Department queue

Received, not-started work

SF-05, SF-07

Update all reservations and reminders

Place by priority class, committed date and arrival

urgent work needs scheduled slots

Plan revision lists every moved booking

a move would miss a committed date

Hold it back; its booking keeps its slot

free slot

→ SF-07

Apply the moves; running bookings never move

On the head's approval: reserve tester, required locations and machine if needed

deadline risk or resource disruption

Head of Department

Move or cancel a department booking, which pins it

Approve the moves of the department?

approve

Free capacity with OverTime or another machine

Assess risk, leave or unavailable room

→ WF-05

→ SF-07

Tester

Testing work arrives, or urgency, a booking change, a result, a cancellation, resource availability or a customer date changes the plan.

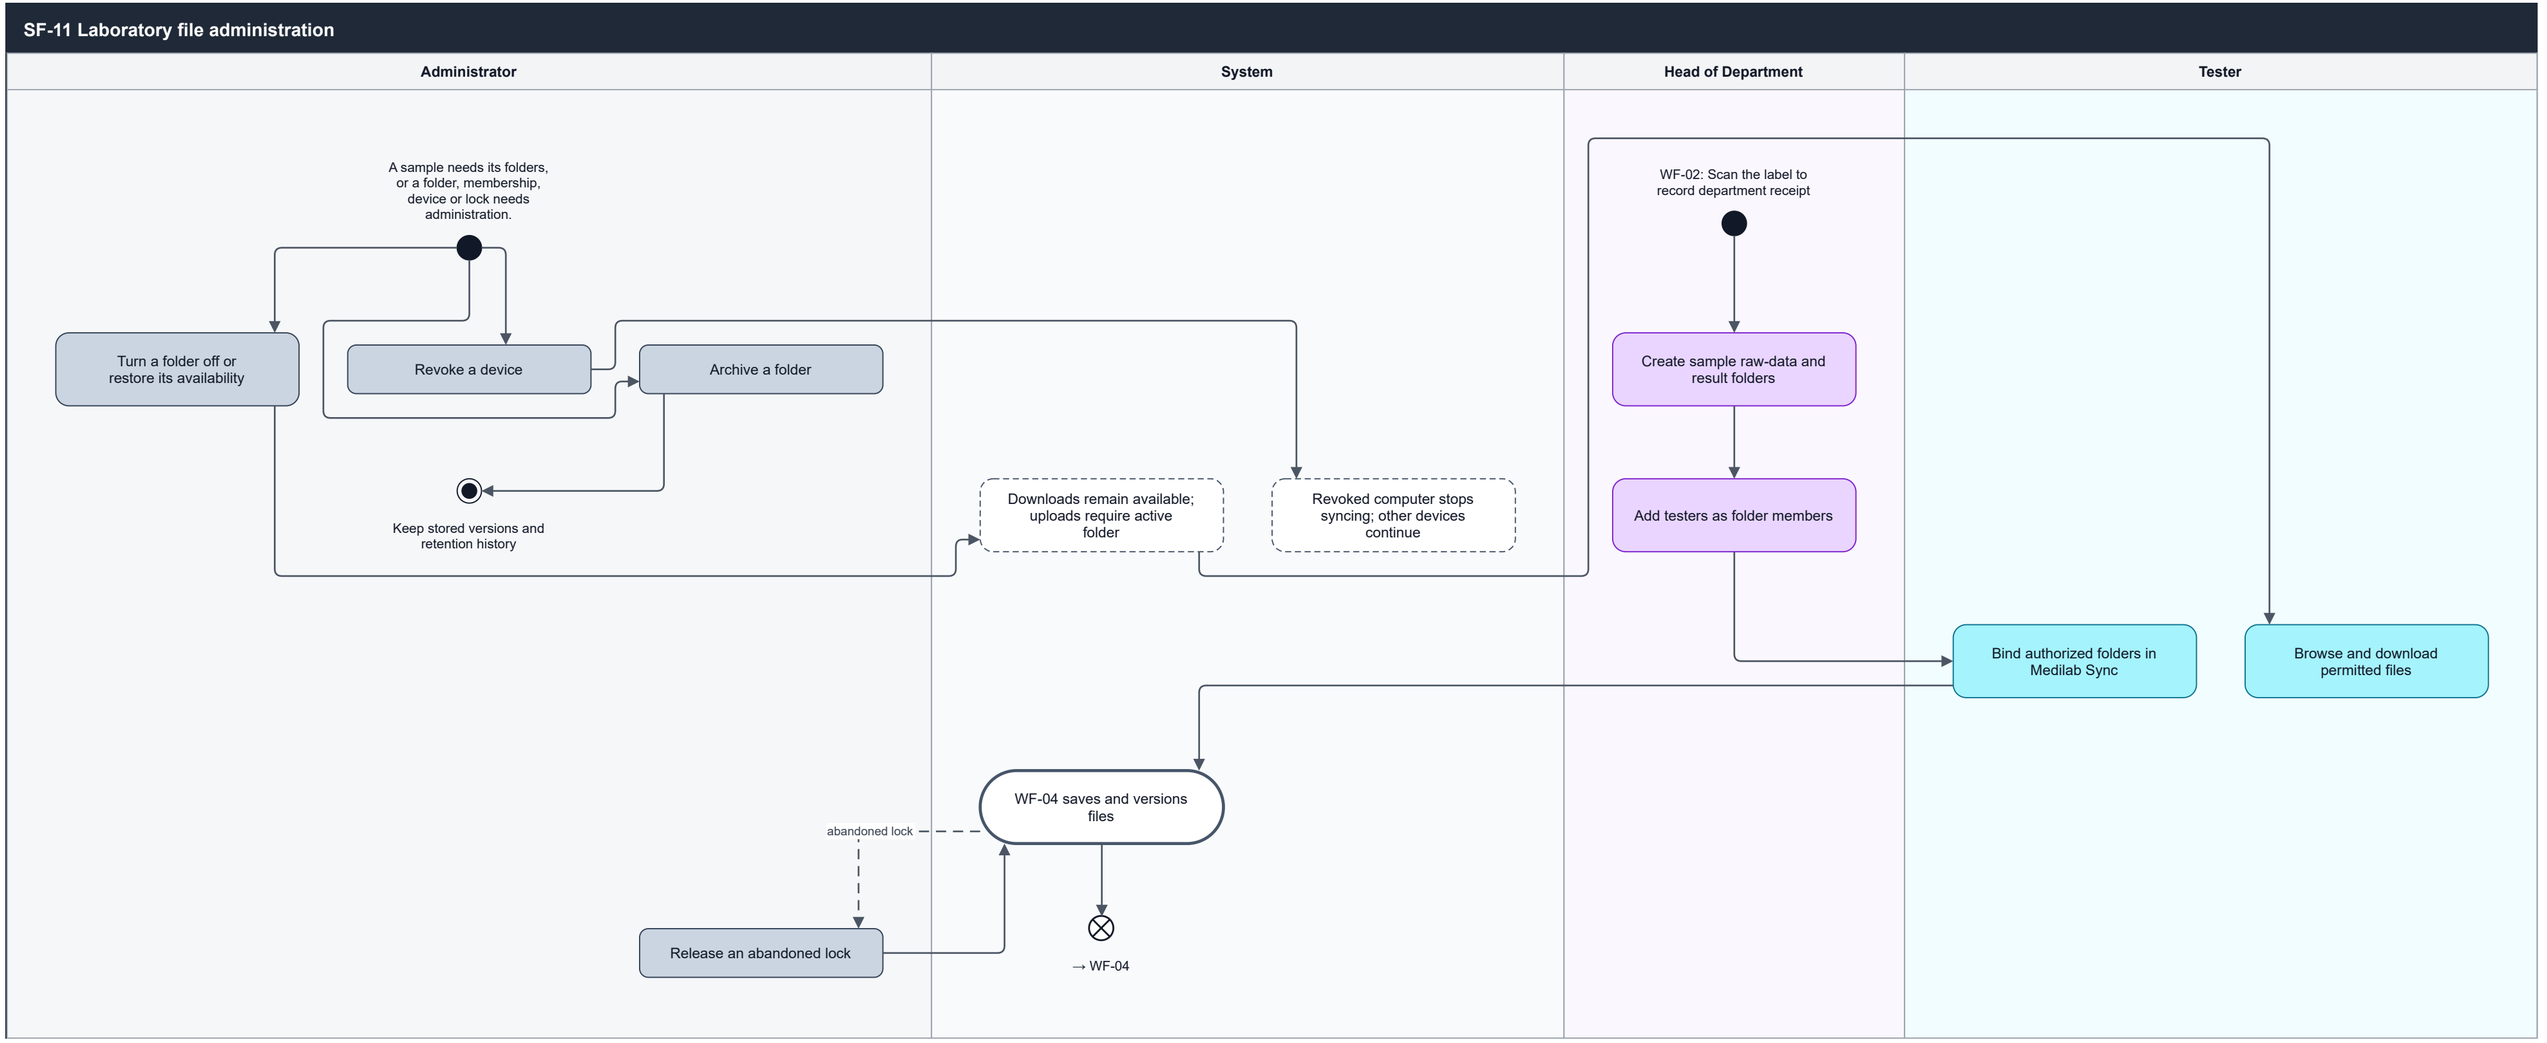

Move or cancel own not-started booking

Mark own test urgent with a reason

Start the booking

Enter the result and free the machine

Booking and result progress under their lifecycles
