Conceptual ERD — Catalog

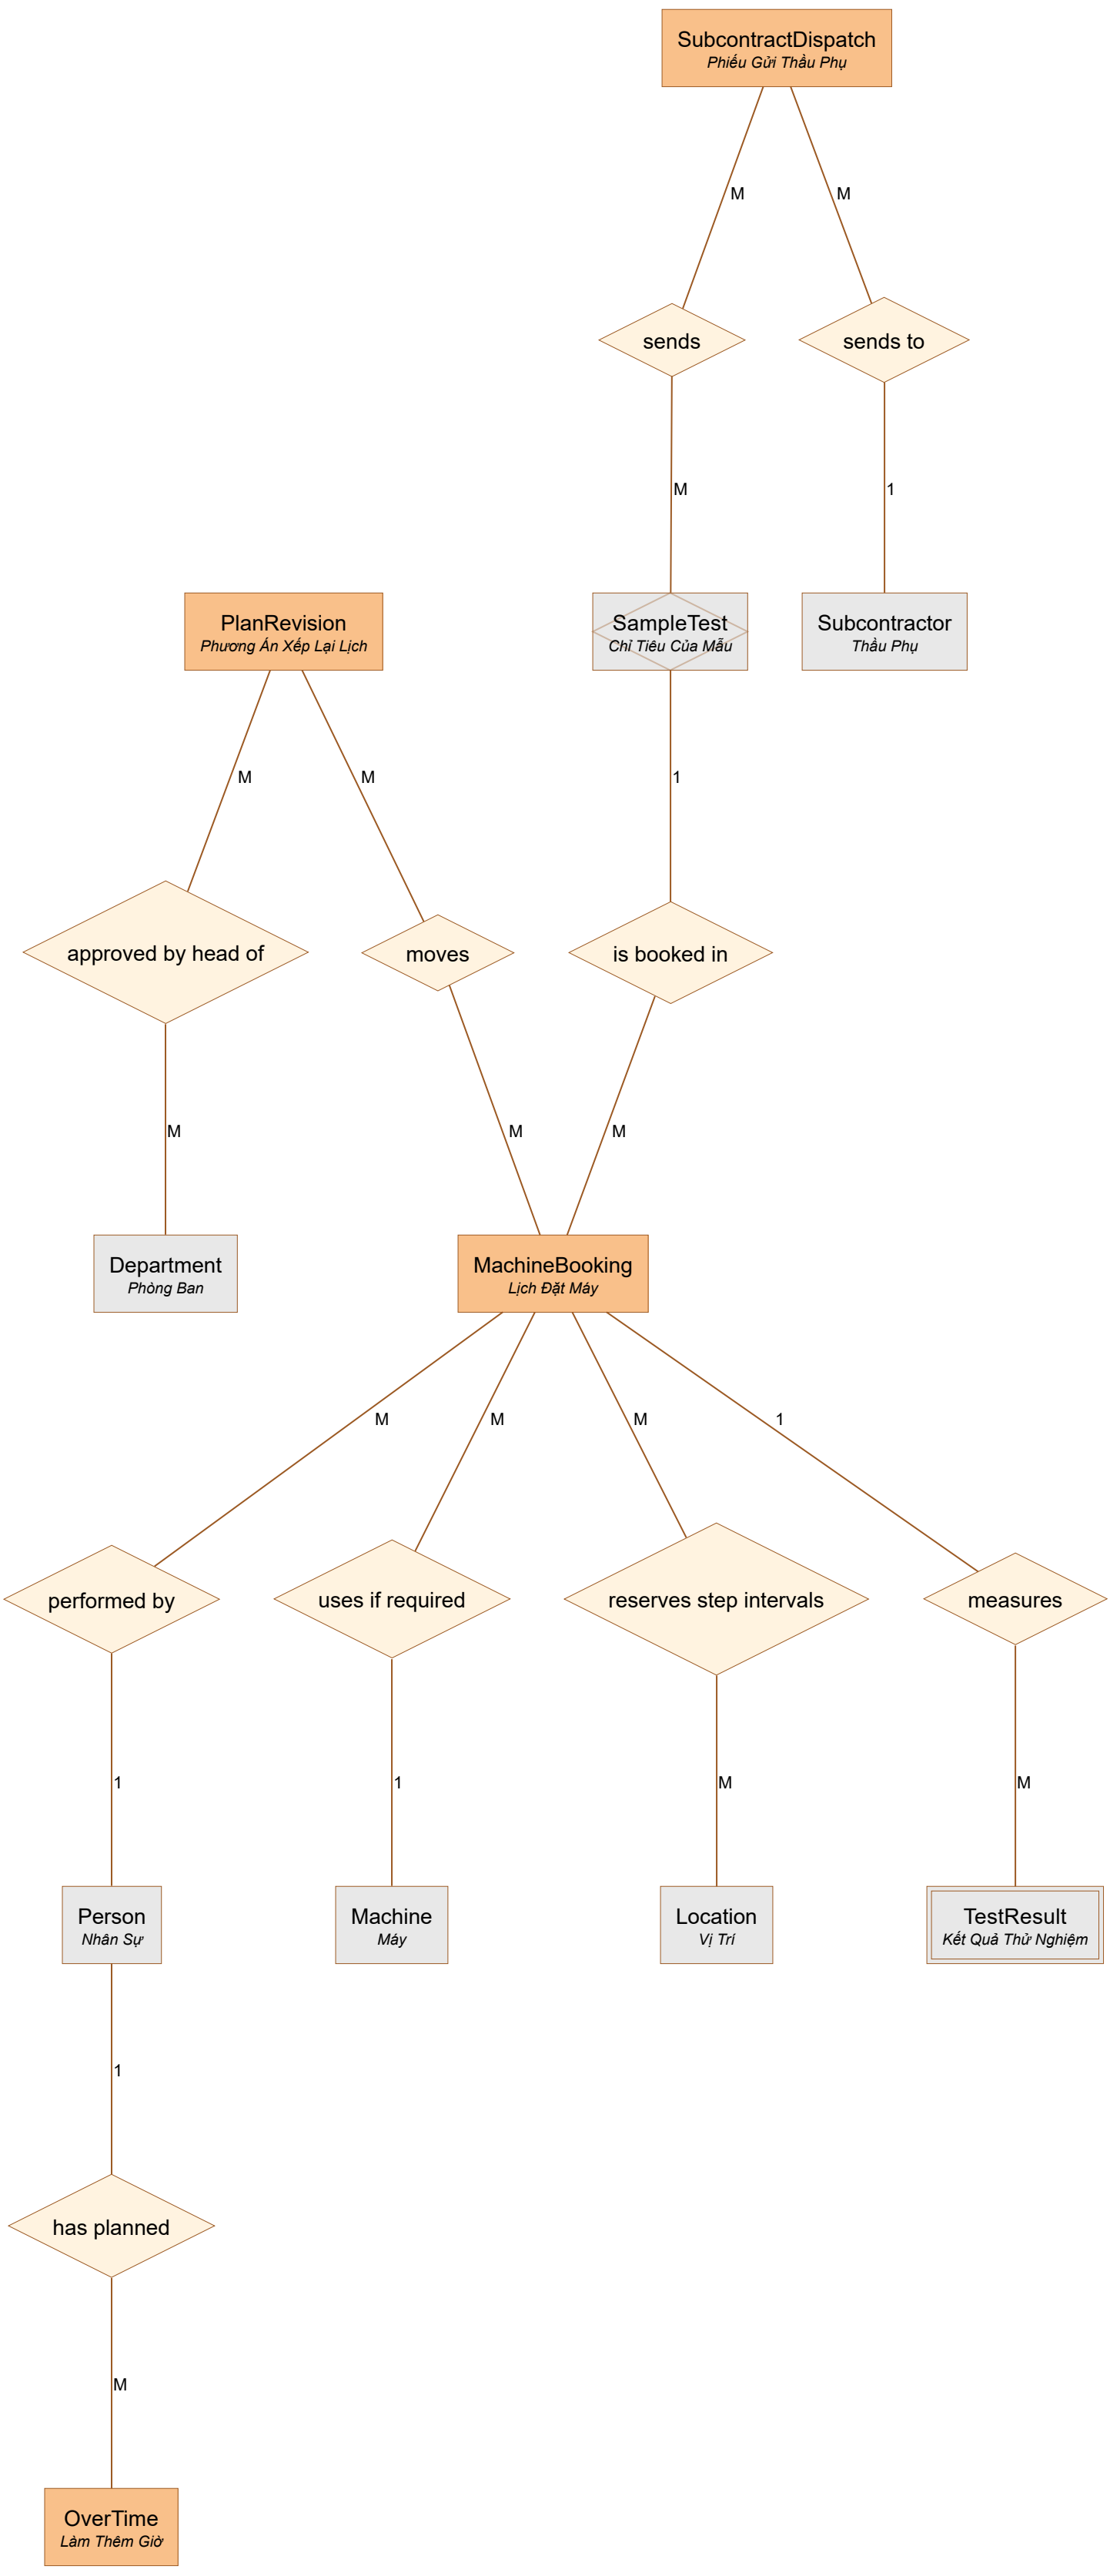

Notation	Meaning
1 / M	Largest number of that entity in the relationship; M is many
Double box	Weak entity: identified only within the entity it belongs to
Double diamond	Supporting relationship of a weak entity and the entity it belongs to
Diamond in a box	Composite (associative) entity: identified by the entities it links, each one-to-many
Grey box	Entity of another area

Conceptual ERD — Resources

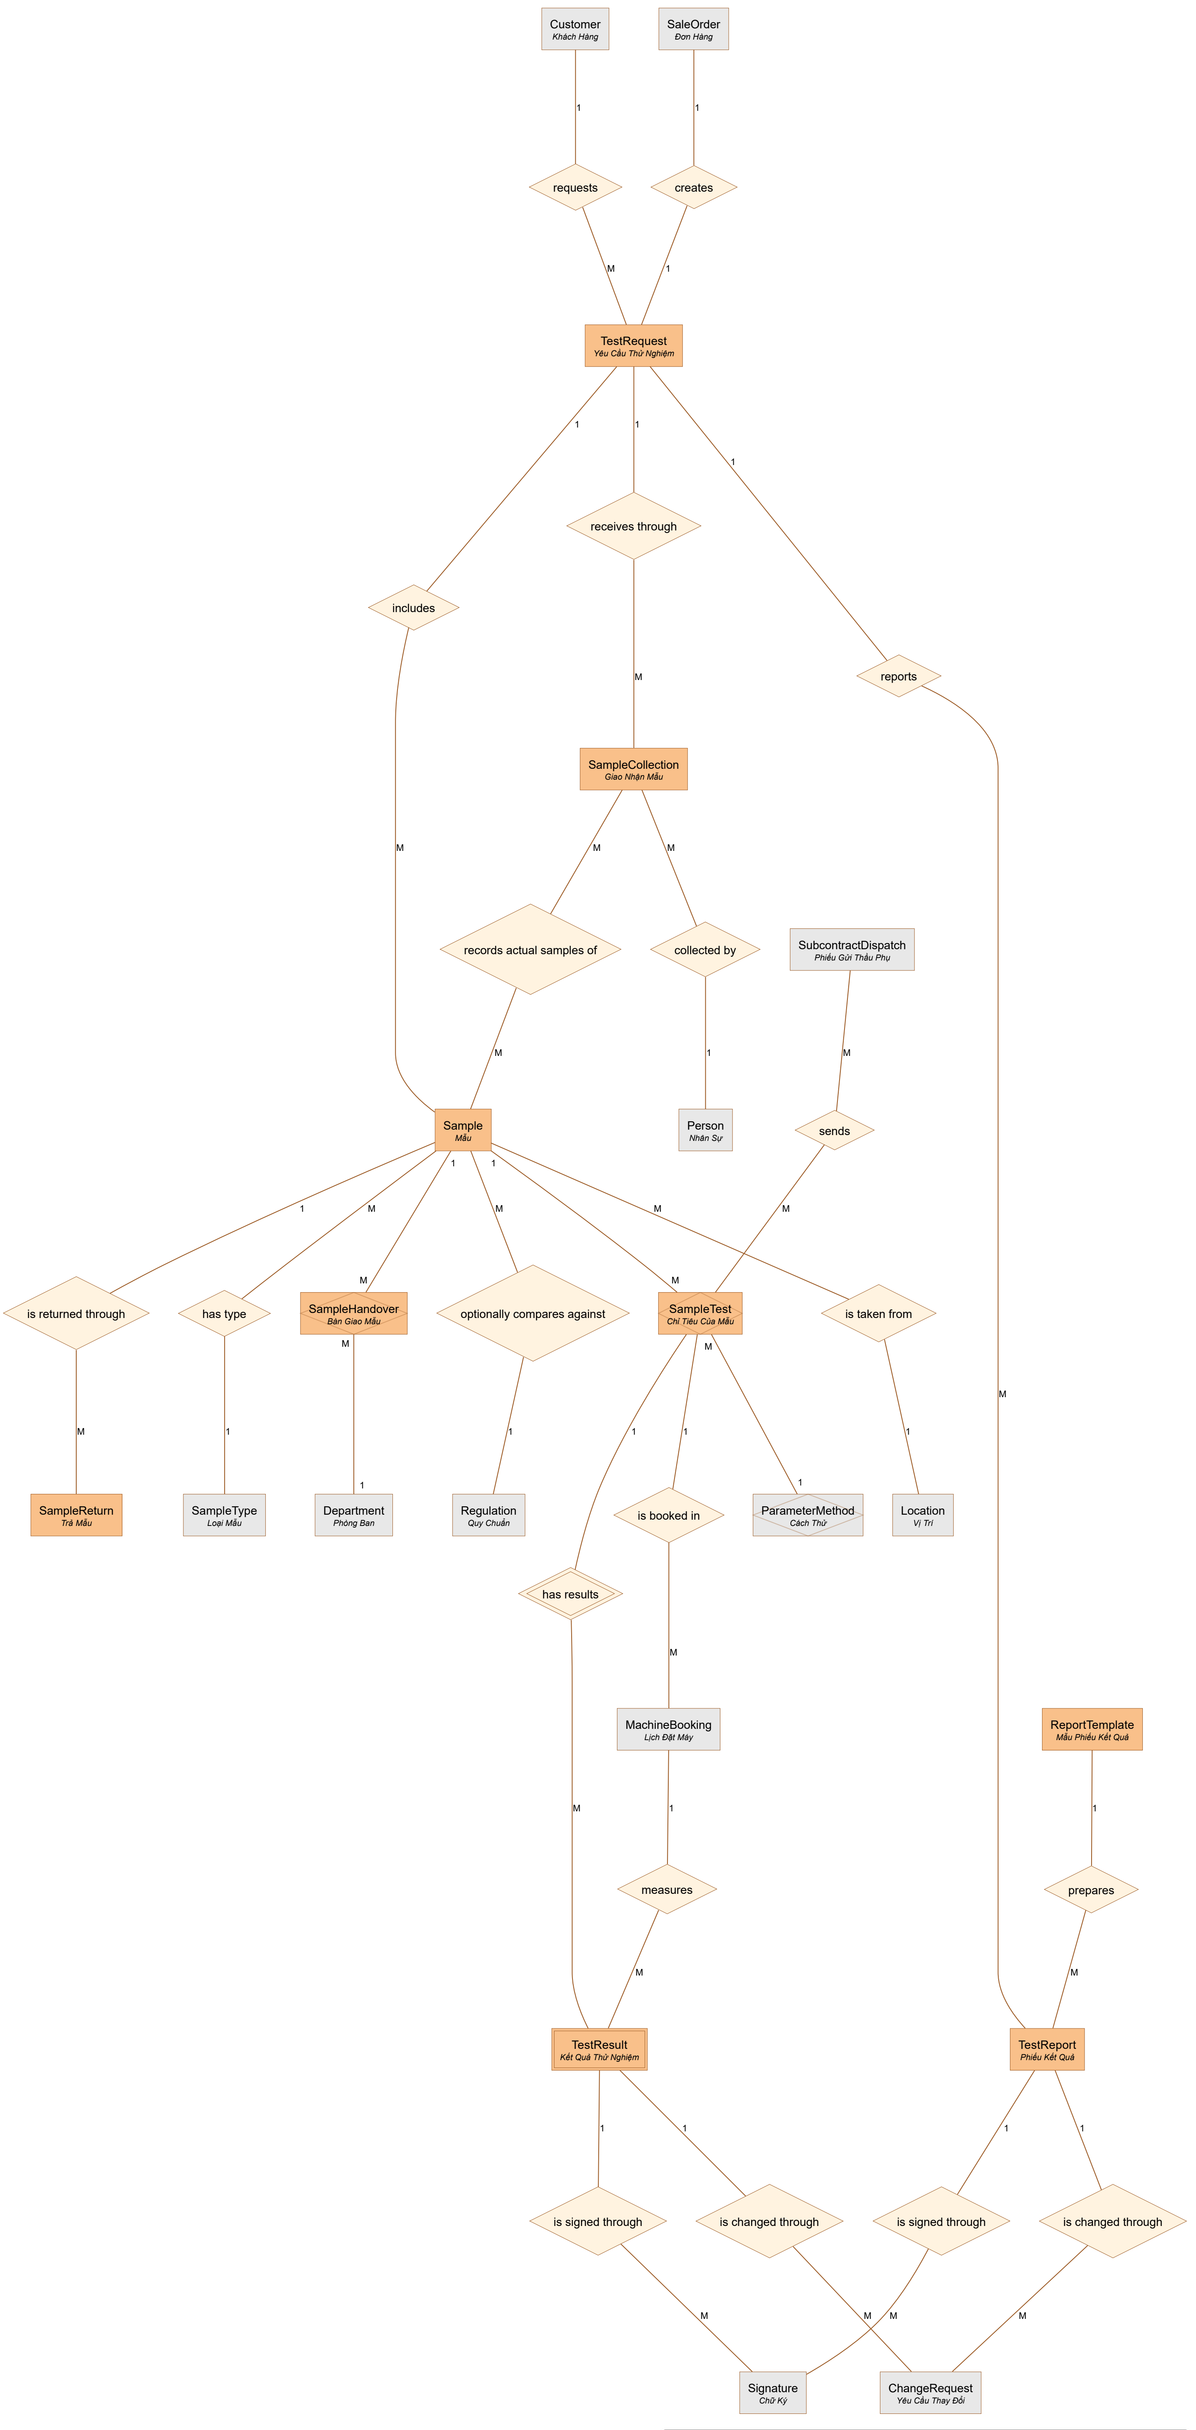

Notation	Meaning
1 / M	Largest number of that entity in the relationship; M is many
Double box	Weak entity: identified only within the entity it belongs to
Double diamond	Supporting relationship of a weak entity and the entity it belongs to
Diamond in a box	Composite (associative) entity: identified by the entities it links, each one-to-many
Grey box	Entity of another area

Conceptual ERD — Scheduling

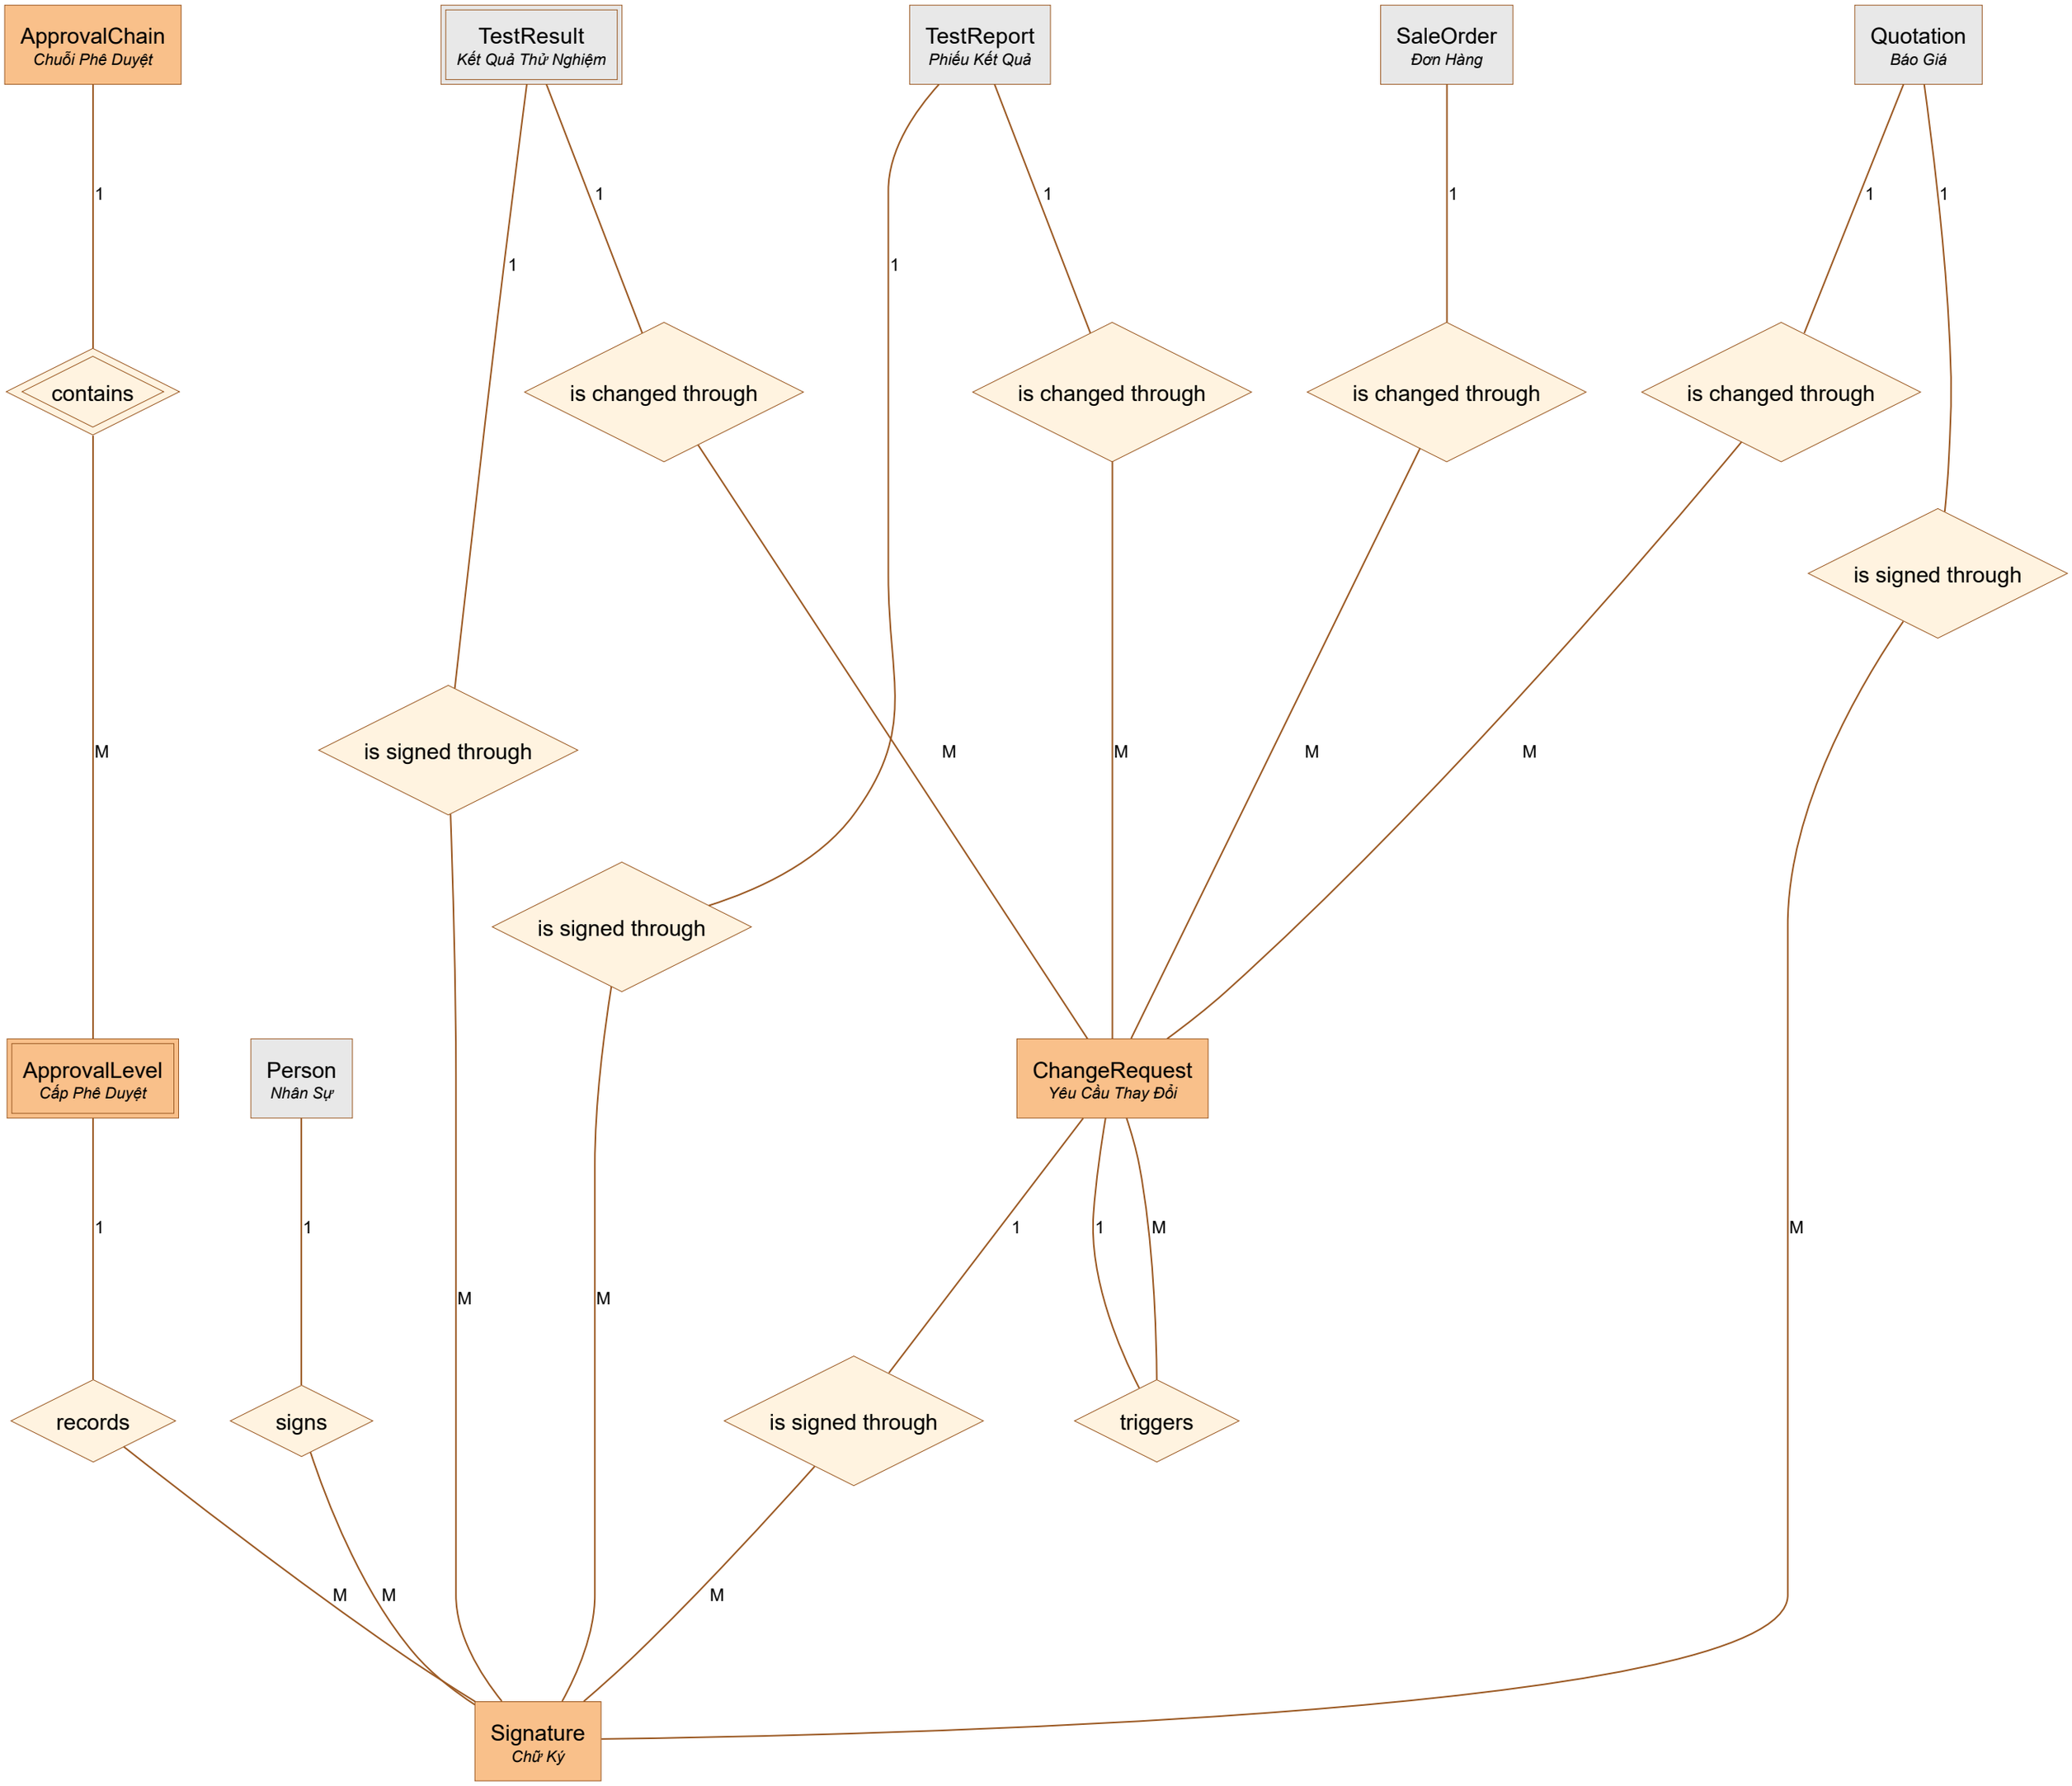

Notation	Meaning
1 / M	Largest number of that entity in the relationship; M is many
Double box	Weak entity: identified only within the entity it belongs to
Double diamond	Supporting relationship of a weak entity and the entity it belongs to
Diamond in a box	Composite (associative) entity: identified by the entities it links, each one-to-many
Grey box	Entity of another area

Conceptual ERD — Testing

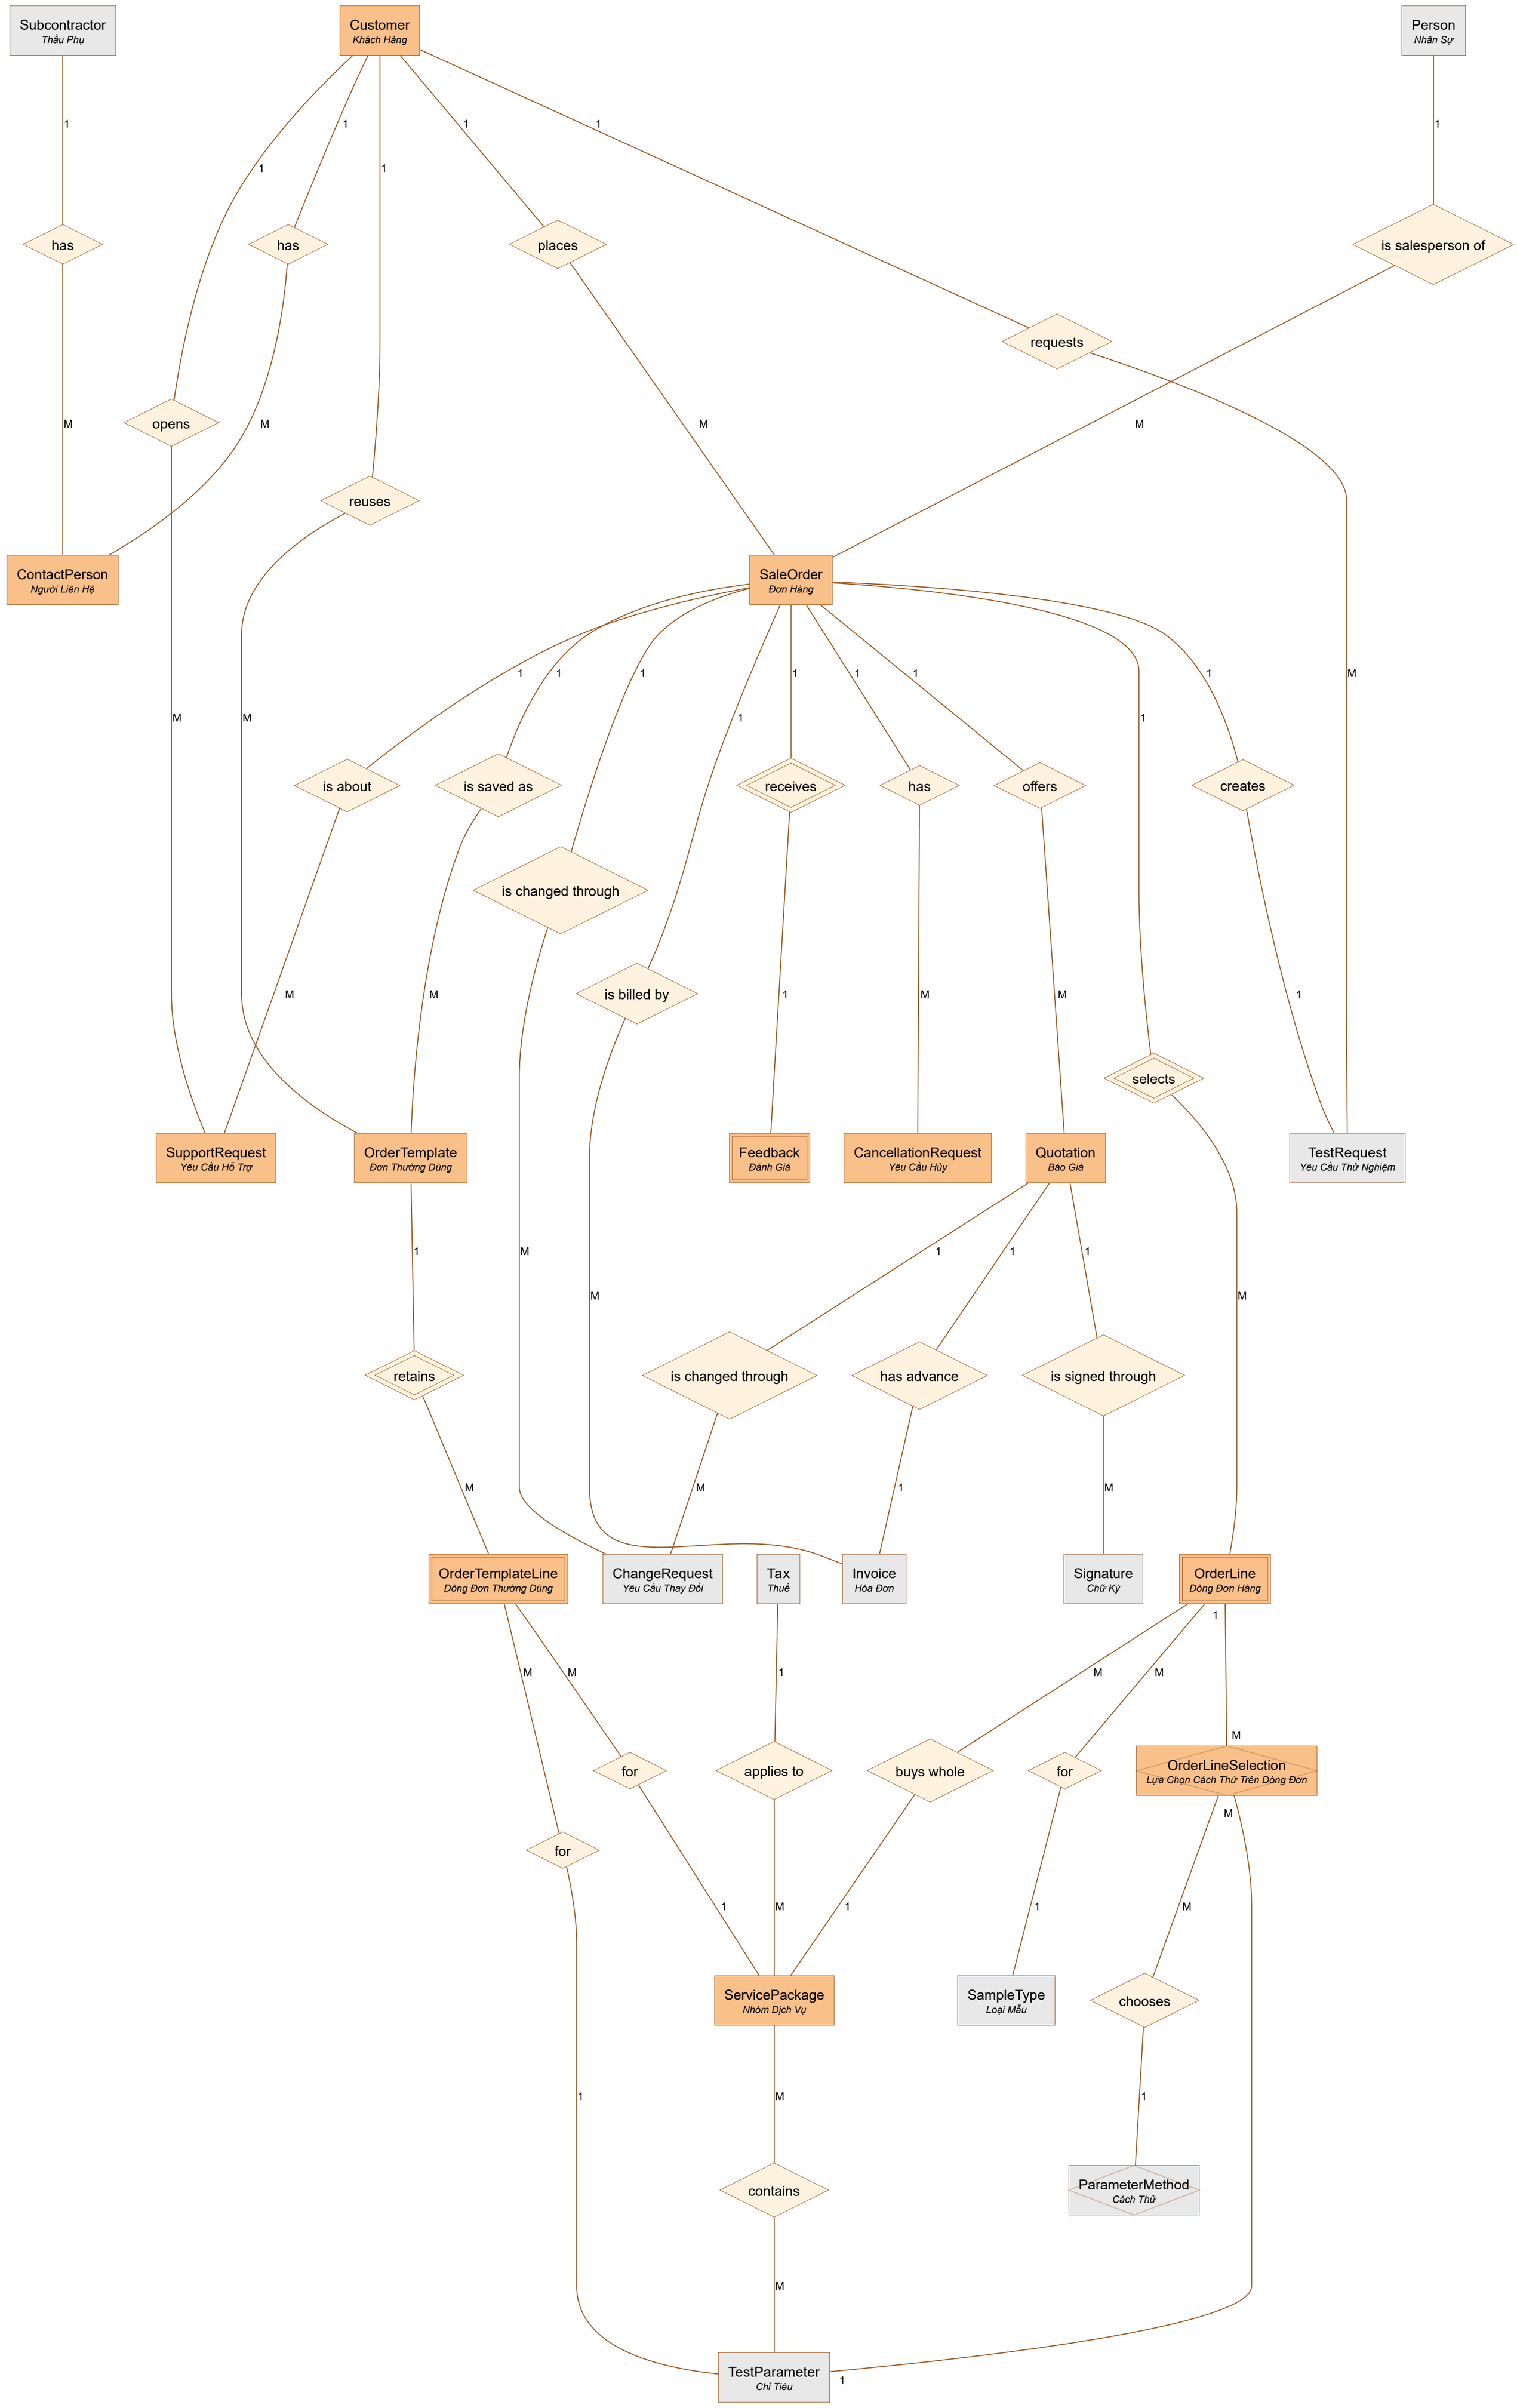

Notation	Meaning
1 / M	Largest number of that entity in the relationship; M is many
Double box	Weak entity: identified only within the entity it belongs to
Double diamond	Supporting relationship of a weak entity and the entity it belongs to
Diamond in a box	Composite (associative) entity: identified by the entities it links, each one-to-many
Grey box	Entity of another area

Conceptual ERD — Approval

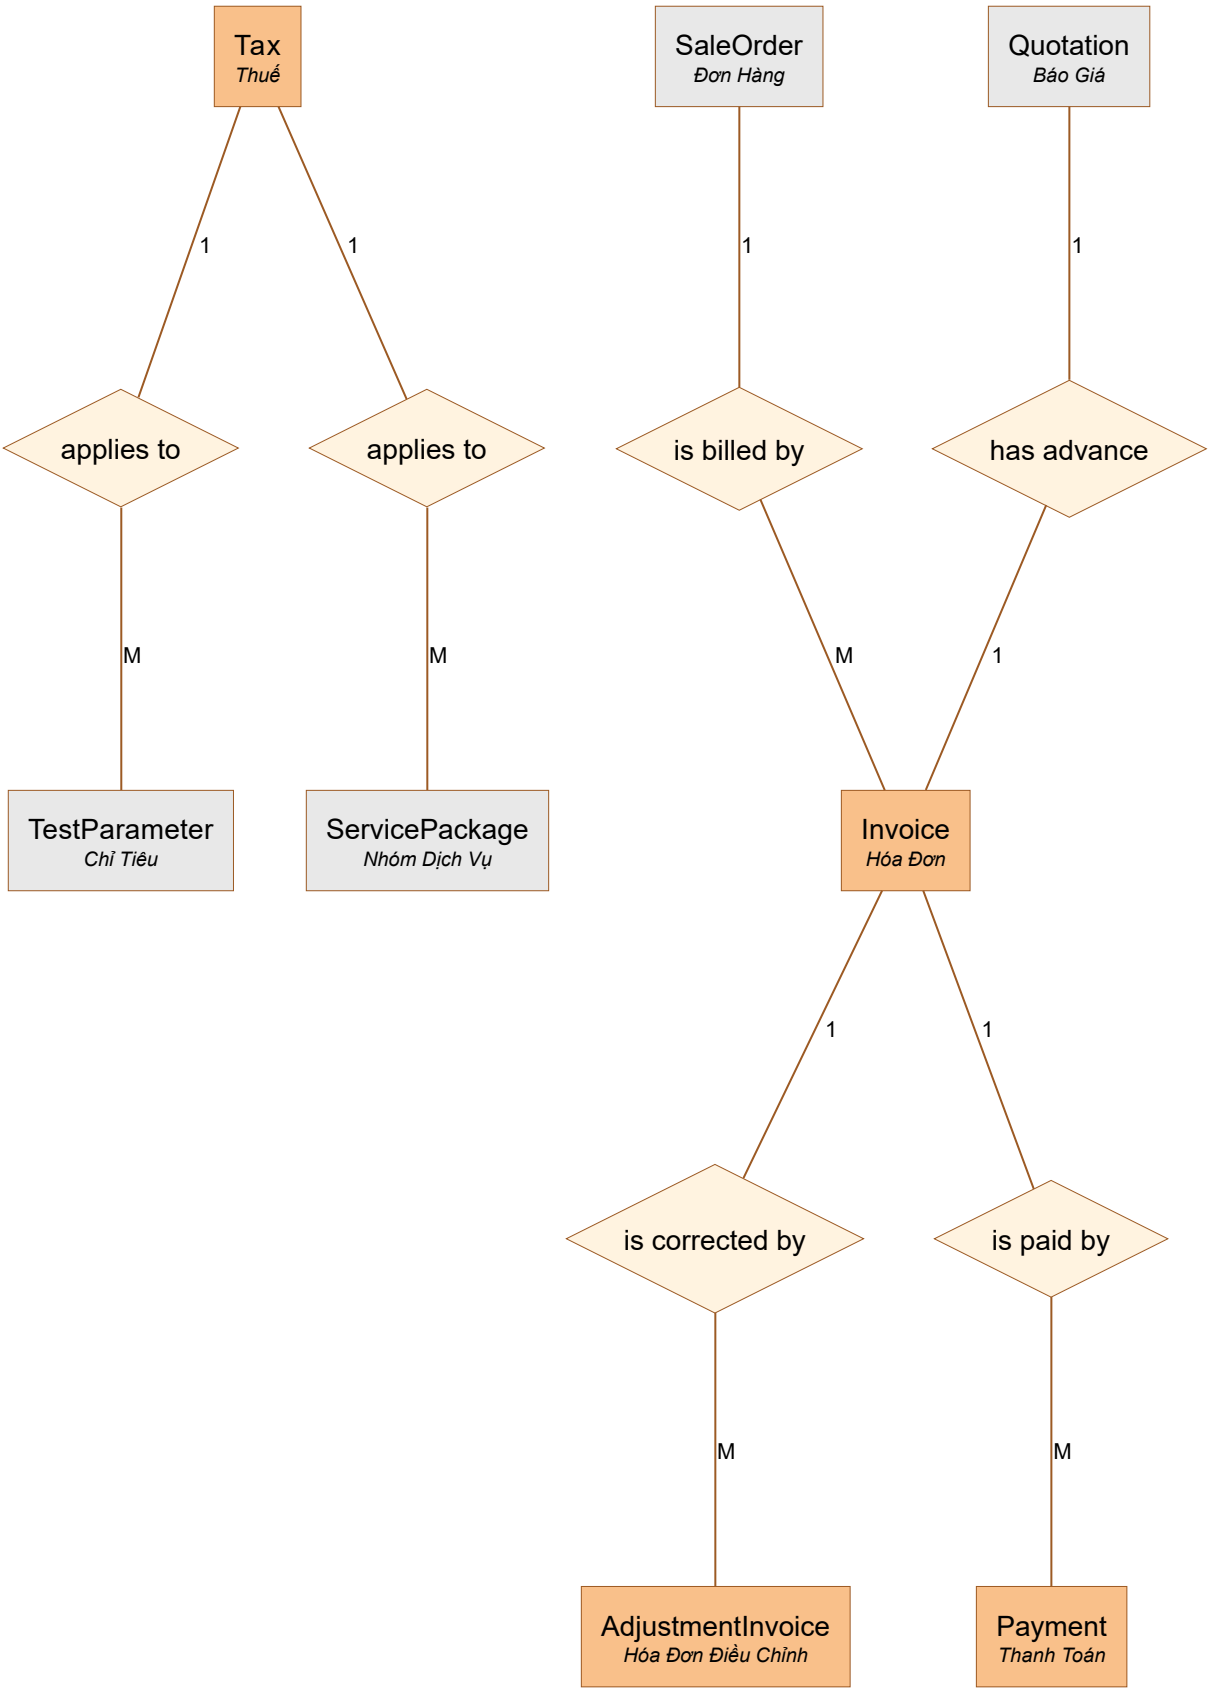

Notation	Meaning
1 / M	Largest number of that entity in the relationship; M is many
Double box	Weak entity: identified only within the entity it belongs to
Double diamond	Supporting relationship of a weak entity and the entity it belongs to
Diamond in a box	Composite (associative) entity: identified by the entities it links, each one-to-many
Grey box	Entity of another area

Conceptual ERD — Sales

Notation	Meaning
1 / M	Largest number of that entity in the relationship; M is many
Double box	Weak entity: identified only within the entity it belongs to
Double diamond	Supporting relationship of a weak entity and the entity it belongs to
Diamond in a box	Composite (associative) entity: identified by the entities it links, each one-to-many
Grey box	Entity of another area

Conceptual ERD — Finance

Notation	Meaning
1 / M	Largest number of that entity in the relationship; M is many
Double box	Weak entity: identified only within the entity it belongs to
Double diamond	Supporting relationship of a weak entity and the entity it belongs to
Diamond in a box	Composite (associative) entity: identified by the entities it links, each one-to-many
Grey box	Entity of another area
